Objective

Enthusiastic and motivated college student pursuing a Bachelor of Science in Computer Science at California State University at Fullerton. Strong foundation in programming using Java and Python, problem-solving, and data analysis with a passion for cyber security and business analytics. I am excited to apply academic knowledge and develop professional skills in a dynamic environment.

Key Skills

- Research and Analysis
- Communication with team members
- Time Management
- Excel and Google Workspace

Education

Bachelor of Science in Computer Science
California State University at Fullerton, Fullerton, CA • 2025

- Relevant Coursework: Software Engineering, Computer Communications, Python Programming, Network Security Fundamentals

Projects

- **Chat Application**: Built a chat application using Javascript. It had features such as chat rooms and unique profile avatars. Integrated Firebase as a database to store data and analyze it for improvements. Integrated Google SSO to make the application more secure and unique.
- **Sales Data Analyzer**: Designed and developed a Python tool to identify trends and performance. Simple UI is used to input data and analyze the data output. Used for my own side business on eBay and gave good results
